PERSONAL

Birth Date: November 15, 2000

TECHNICAL SKILLS

Programming

JavaScript, PHP, C++, Python, C#

PROFESSIONAL SUMMARY

Software Engineering student and multidisciplinary researcher conducting practical projects in cyber security, network analysis, and penetration testing, while simultaneously researching emotional intelligence, human-computer interaction, and cultural psychology. Focused on secure coding practices (OWASP), database optimization, and human-computer interaction.

EDUCATION

B.Sc. in Software Engineering (In Progress)

Cyprus International University (CIU)

Nicosia, TRNC

PROJECTS

Emotional Intelligence (EQ) Platform

duygusalzekaplatformu.com

TEKNOFEST 2025 Finalist — Social Innovation (Top 15)

An algorithm-driven interactive training platform featuring dynamic scenarios that analyze users' emotional states.

- Rebuilt PHP Session Architecture from scratch with security hardening; added protection layers against XSS and Data Manipulation attacks.
- Wrote performance-optimized MySQL queries for high concurrent traffic management.

Technologies: HTML5, CSS3, PHP, MySQL

Network Security & Pentesting Projects

- WPA2 password cracking using Aircrack-ng, MITM attack simulations with Ettercap.
- Port forwarding via Ngrok for phishing page creation.
- DNS traffic analysis and anonymity testing over the Tor network.

Tools: Kali Linux, Aircrack-ng, Ettercap, Wireshark, Ngrok, Tor, OSINT

Web Development Projects

- **Eagle's Nest Restaurant (eaglesnestcy.com):** Comprehensive restaurant website with menu and reservation integrations (PHP, MySQL, JS).
- **Mehmet Pinar Trading:** Corporate website designed with modern infrastructure (HTML5, CSS3, JS, WhatsApp API).

Web Development

HTML5 & CSS3, Responsive
Design, SQL/MySQL, UI/UX

- **Academic Website:** Personal portfolio and publication site design for an academic researcher.
